Tilson Shopping Center Planned In Western Area

A two- and three-quarter acre tract at Saratoga avenue and Quito road, west of Campbell city limits was zoned for commercial development in action Monday by the County Board of Supervisors in over-riding a recommendation from the County Planning Commission.

Owners of the property, L. J. Tilson and Phillip Sanfilippo plan a shopping center there. Several times the planning commission voted against rezoning the area, contending that by so doing a traffic hazard would be created when Route 5 Freeway is completed.

Councilman Joseph McKinnon on Monday moved and Supervisor Della Maggiore seconded that the board adopt the ordinance rezoning the area and motion carried by 4-1 vote. Supervisor Walter Gaspar cast the negative vote.

In the meantime Tilson construction company was granted permits for 36 new homes on Hillsdale, Gevota, Jules and Foxworthy avenues to cost a total of \$2542,000.

City, County, State Plan Road Widening Projects

Hamilton Intersection To Get \$77,000 Improvements

Work is expected to start within the next sixty days on traffic lights, electronically controlled stop signals and four lane approaching highways-at the Hamilton avenue and Los Gatos-San Jose road intersection, it was announced by City Engineer Mark Thomas at the council meeting Monday evening. The project according to a letter from B. W. Booker, state highway engineer, Division Four, will cost an estimated \$77,750.

Thomas said all but \$4200 of this money to be put up by the County, will be provided by the state according to present plans, leaving gas tax monies already allotted to the city, for work on streets of major importance within the city limits.

The Los Gatos-San Jose road is to be widened to 42 feet of paving instead of 20 feet as at present, to allow for four lanes of traffic, the widening to be a distance of 1000 feet north and 1000 feet south of the intersection.

Mayor Richard Morton pointed out at the meeting Monday also that the council will at an early meeting, consider the extent of work to be done in widening Hamilton avenue and Winchester avenue, and improving secondary streets. The city has \$32,000 in its unbudgeted gas tax fund available after July 1, and has \$53,000 in the Chapter 20 fund available from the state matching fund that is to be spent by the city.

In the meantime, the county engineer's office reports that Winchester avenue north from the Campbell city limits to Stevens Creek road is to be widened to four lanes, according to a resolution adopted last November 4 by the County planning commission and approved by the County Board of Supervisors.

City Engineer Mark Thomas received word late yesterday from the Division of Highways that the state will advertise for bids next Monday for the Hamilton avenue and S. J. L. G. intersection improvements. Thomas said the contract will probably be awarded on March 10 and work started March 25th.

Council Considers Change To Twice-Monthly Meetings

The city council Monday gave favorable reaction to a report from the planning commission and the boundaries commission for annexing the A. G. Warning subdivision west of town in that it might be better administered and the boundaries would be

more symmetrical. The planning commission having submitted a tentative map, the council will consider next Monday if the city attorney is to proceed with legal description and annexation proceedings.

Richard Weldon, owner of the newly established Blossom Valley Animal Clinic on the Los Gatos-San Jose road, south of Hamilton avenue wrote the council contending the \$100 business license seemed out of line for a firm owned and operated by a single individual, and matter was referred to Councilman Joseph Gomes, chairman of the franchise and license committee for a report next Monday.

Hunt Foods Cannery also wrote that the \$100 tax bill sent them may not now be applicable to their present operations here as a warehouse, this matter being referred to City Attorney Joseph Bonacina.

City Clerk Dorothy Trevelyan reported \$17,332.28 tax warrant having been received from the office of the county controller. A. H. Dolkey wants permission to remove a pepper tree at 73 North Central. The city engineer said he had authorized Sanitation district 4 to repair a flushing inlet on Carolyn avenue on a six inch sanitary sewer.

City attorney Bonacina said he saw no legal obstacle to the Old Settler Day committee putting banners across the street but recommended that the city should be covered by insurance. William Enoch, secretary of the Chamber of Commerce said the banners would be at the Winchester and Campbell avenue intersection and the Campbell avenue and Los Gatos-San Jose intersection, stating that the committee was to meet yesterday to prepare written applications. Settler Day operations will be at the school and even the food will be prepared in the cafeteria.

The city attorney and engineer are to review the sign ordinance and submit recommendations for amendments. Council voted membership in Peace officers association which protects against charges of false arrest.

LeRoy Black reported street was falling near the Shell station at Central avenue and Campbell, due to an abandoned redwood flume under the pavement which he thought should be removed and refilled or replaced. He indicated the Campbell Water Company might help with labor and equipment if he would install a dip across the driveway from the Co-op dryer on First street which would relieve waters impounded on their property.

Mayor Morton proposed that the council consider meeting twice monthly instead of every Monday, this matter to be on the agenda next Monday.

bling mats underwritten by the Dad's club last year, will also include a wrestling match between two pint-sized contenders, bearing titles heavier than their combined weights.

Union School boys have formed a ticket sales committee and are busy early to make the affair a success, school officials said.

Bucs Take Lead In SCVAL Title Race

A capacity crowd last Friday evening saw Campbell Buccaneers move into undisputed lead of the Santa Clara Valley Athletic League basketball standings by trouncing their nearest competitor, the James Lick Comets, 50 to 40 on the latter's court. It was the fourth straight win for the Buc's and the first defeat in four starts for the Comets.

Campbell, as usual, played a smooth game and was able to score whenever pressed. The Buc's had a 1-7 lead at the end of the first quarter, 20-15 lead at the end of the half, then swung into a 33-24 grip on the game at the end of the third quarter.

Tom Hansen, all-valley center, played a stellar game for Campbell, even though he seemed marked for intense guarding. Kenneth Beth looped 18 points to top the scoring for Campbell and turned in a good defensive performance.

The Campbell lightweights also won to retain their league leadership, 41-37. Ron Arnaud stacked up 15 points for the victors making six field goals.

Buc-Washington Game Here Friday

Campbell High School's unbeaten basketball teams face Washington High in the local gymnasium tomorrow evening in a march toward the second consecutive championship of the Santa Clara Valley Athletic League. The Bucs expect stiff competition from the visitors as the visitors went overtime periods before losing to the Lick High School recently but winning over Los Gatos and Santa Clara.

In the lightweight division, both the Bucs and Washington are in a tie for first place, so this encounter will put one or the other in the front rank. In the meantime Fremont takes on the tough Mountain View quintet and a victory there and a loss by Campbell will throw the top teams into another tie for first place.

Opinions expressed in this department do not necessarily reflect the editorial policy of this newspaper.

Editor: The Campbell Press.

"We have no definite opinion with regards to annexation in any direction or if annexation is even necessary. The report currently being presented to the Association members and their neighbors, is a factual report presenting all sides of the issue in three stages.

Some people, including members of the report committee, have drawn conclusions from sections of the report prior to the completion of the report.

These conclusions do not represent those of the association, but only of some of its members.

There can be no official CPIA stand until the report is completed, the debates are finished, and a vote by the membership.

The board of directors of CPIA regret that some of the members felt that the association report is slanted in any one direction or another, and wishes to reaffirm the purpose of this report; to present factual, unbiased data with no opinion of its own."

It's as simple as this. In Winter, snow usually falls. Snow usually gets hard and slippery. If you drive too fast over something that's hard and slippery, you're apt to skid and bust something... yourself, usually. Then for goodness sakes why not drive slow? And use tire chains?

NOW AT HOME . . . following their recent honeymoon trip to Monterey and Carmel are newly married Mr. and Mrs. Larry M. Ringer. In photo above, the couple (center) are shown about to cut their wedding cake following the marriage ceremony performed by the Rev. Herbert W. Neale at Campbell Methodist Church. Donna R. Jones (left) and Leland L. Jones, bridesmaid and best man, join the couple to make the picture.

Mr. and Mrs. Larry Mayard Ringer Are Back From Monterey Honeymoon

Now at home in Campbell are Mr. and Mrs. Larry Mayard Ringer (Katherine Ann Jones) who were recently married by the Rev. Herbert Neale in The Campbell Methodist Church.

Katherine was escorted to the candle lit altar by her father, Leland L. Jones, Sr. As she repeated her vows she was attired in a white satin, waltz length gown with a white lace fitted jacket, designed with long pointed sleeves and peter pan collar. Her only jewelry was a rhinestone studded cross, gift of the groom. Her finger tip veil was held in place by a netted crown with pearl orange blossoms. She carried a white Job's Daughters Bible, marked with white phenolips and white satin streamers tied with love knots. Donna R. Jones, sister in law of the bride, served as the bride's only attendant. She was gown in an ice blue identical dress to that of the bride. She carried a cascade of red roses.

Both gowns were designed and fashioned by the bride's mother. Waiting at the chancel rail with the groom was Leland L. Jones, Jr., who served as best man, while the guests were seated by Bob Spencer and James Robbins.

Joline Sweet played the organ music, while Jean Ewan sang the vocal numbers.

Mrs. Leland L. Jones, Sr. attended her daughter's wedding in a black lace over pink taffeta dress, accented with pink hat and gloves. She pinned a pink cymbidium corsage at her shoulder.

The groom's parents, Mr. and Mrs. Lewis M. Ringer, of Yakima, Washington, were unable to attend their son's wedding because of snow storms. But the groom's aunt and uncle, Mr. and Mrs. C. Carbinaro, of Hayward were present. Mrs. Carbinaro was attired in a grey suit with black accessories. She pinned on a white carnation corsage.

The newly married couple were received at a reception immediately following their ceremony, in the home of the bride's parents, at 408 Kenneth Avenue. Here the cut a four tiered wedding cake, which was served to the 150 guests by Joline Sweet and Marilyn Graham, assisted by Betsy Stevens.

As the couple left for their honeymoon trip to Monterey and Carmel, Katherine wore a navy blue linen suit with navy and white accessories, and pinned at her shoulder a white corsage.

Katherine is a graduate of Campbell Schools and attended San Jose State College where she was affiliated with Kappa Phi. She is now employed by The Pacific Telephone and Telegraph as a Service Representative.

THE VANISHING HOPE CHEST

The diminishing number of hope chests is said to be in direct proportion to the increasing number of deep freeze units. Last Summer's trout catch is today's entree, but last Summer's hat may be up in the attic or at the rummage sale.

The hope chests may vanish, but feminine hopes will always be with us . . . we hope.

An Oakland Tribune reporter figures that the main reason for the vanishing hope chest is that most girls are either working or going to college so have less time to make things for the chest; they can buy things now already manufactured which their grandmothers had to make by hand; newly married couples often live in small apartments for the first years after the wedding thus requiring fewer things; and finally most girls get things just before they make the leap or wait so as to shop with their husbands afterward.

LET'S BE PREPARED!

Proudly marking the 44th birthday of the Boy Scouts of America, this year's Boy Scout Week has been dedicated to the men and women who bring Scouting directly to the boys.

It's a good thing, this paying of tribute to the more than 860,000 adults volunteering time to work with the Boy Scouts. Maybe it will spur others to give of their time to the youngsters knocking at Scouting's door. The kids always will be knocking, for each new generation of boys is eager to follow in the path of the 21,000,000 who have enjoyed scouting since 1910.

It's up to adults, though, to see that the opportunity is available. Grownups might well adopt the Scouts' familiar motto: Be Prepared!

ABRAHAM LINCOLN

It is a thing of never-ending wonder how so many utterances of Abraham Lincoln go on through the years without in the least losing their freshness and force, their depth and inspiration. But it proves that he who touches the chord of Truth speaks for eternity.

If Lincoln had never been elected President, if he had never been the Nation's leader in its greatest crisis, he would still have been a man of greatness. Time in the White House did not make him what he was; rather, it brought out what he was.

Like other men, Lincoln had his faults and his failings. But his virtues—his vision and courage, his humanity and humility—more than offset what he lacked. He never lost the common touch. He spoke for the masses. He voiced what they felt but could not speak.

Lincoln symbolizes the principles on which America was founded: the equality of all men, the opportunity for the lowliest to reach the heights, the vigorous support of right, the firm resistance to the wrong, and the tolerance toward those of differing views.

On this occasion of the 145th anniversary of his birth, the Nation pays tribute to one of its greatest and most humble men—Abraham Lincoln.

COLLEGE TEAMS AND TV

The idea of televising one football game over a national hookup each week would be alright if the outstanding game could be determined in advance. As it is now, the colleges select the game months in advance. The sponsor and the fans feel they are not getting full value, and that is why it is best to actually see the important game. There is more pleasure watching one of the outstanding games than to find the football TV fare limited to a struggle between important colleges with unimportant teams.

Civilized men and women support the church because the church supports civilization.

EVERYBODY LOVES A PUPPY

Most everyone would like a puppy in his home for a while, especially a German Shepherd puppy. Guide Dogs for the Blind have the answer.

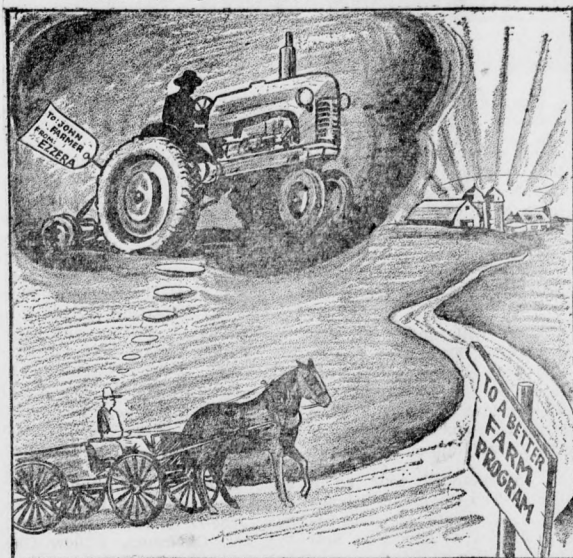

There are fifty purebred German shepherd puppies available for about nine months. You get the fun of raising the puppy which needs you, but you do not have to worry about what to do with a big, grown dog. Guide Dogs for the Blind will be on hand to take him at that stage.

Sounds patronizing, but it isn't. Each puppy raised to be a guide dog is from a highly selected breed, with instincts for leading the blind. In addition, every puppy is first given aptitude tests to determine if he is suitable as a guide.

These puppies now available are very valuable. It has been proven that their value is improved if they have normal puppyhood in homes of families where they can get some love and attention.

Some of these dogs are raised by 4-H club members. Good homes are desired. Anyone interested should write Guide Dogs for the Blind, P. O. Box 235 San Rafael, California.

DREAM OF THE OPEN ROAD

LETTERS TO THE EDITOR

Opinions expressed in this department do not necessarily reflect the editorial policy of this newspaper.

Editor Campbell Press, Campbell, California.

At a recent meeting of the Campbell Democratic Club held at the Rosemary School, Dr. Oscar W. Junek, a former professor of anthropology at Oxford and New York University, gave a talk on "What is a Civilized Community?"

Each question received a ten percent, five percent or zero rating depending on whether the subject in question is adequately handled by the community.

1. PLANNING AND HOUSING. Is every family decently housed? Is there continuous planning for the improvement of residential areas, parks, highways? Is public housing receiving favorable action or is it opposed by real estate boards? Are parking, traffic, transportation problems under control?

2. EQUALITY OF OPPORTUNITY. Some politician frequently mouth this phrase. Let us see whether people of different races, nationalities and religions have full chance for employment, residence and participation in community affairs? Are dangerous tensions kept at a minimum by the avoidance of discrimination?

3. ECONOMIC DEVELOPMENT. Are good jobs available? Do Labor, Industry, Agriculture and Government work together to insure a sound economic growth? Are Labor Unions respected for the part they play in protecting the workers against exploitation?

4. EDUCATION. Does your town make education available to every child, youth and adult? Are your schools uncrowded, properly equipped and in good physical condition? Are the teachers highly qualified and well paid?

5. HEALTH and WELFARE. Is there a positive approach to improving and maintaining the

health of the entire community? Are medical care and hospitalization READILY AVAILABLE? Are there provisions for underprivileged children, the aged and the handicapped? Can families in trouble secure the assistance they need?

6. GOVERNMENT. Do capable citizens seek public office? Are your city officials concerned above all with community betterment? Do controversies stem from differences of opinion and not from squabbles over privilege?

7. COMMUNITY ORGANIZATION. Are there such organizations as Citizens' Council, Community Forum working for the advancement of the ENTIRE community. Do specialized organizations give vigorous attention to each important civic need?

8. RELIGION. Is full opportunity for religious expression accorded every individual or are various sects derided or even hated? Are your churches strong and well supported?

9. CULTURAL EFFORTS. Are your citizens' lives strengthened by ample occasion to enjoy music, art, dramatics? Does your community have a professionally administered library service benefitting people of all ages, races, nationalities? Do your newspapers, radio and TV system carefully and without bias review the affairs of the community?

10. RECREATION. Are there enough supervised playgrounds and facilities for outdoor activities? Does your community offer full opportunities to take parts in useful arts and crafts?

Dr. Junek evaluated Los Gatos using the above ten criteria as yardstick and concluded that Los Gatos is only 37 per cent civilized. It should be worth the effort of every citizen of Campbell to use these criteria for the evaluation of our town.

The Campbell Gambol

SUNRISE STROLL finds yellowing hue along the road sides as the mid-Winter blooms of the Baileyanna acacia trees bend with sprays some of which are probably destined for shipment by air express to florists in the snow-bound Atlantic Coast states . . . white almond blossoms show in orchards and spotted about in back yards . . . home fronts are dressed in pink japonica blooms while hills are laced with clouds creeping over their surface just as the sun peers into the blue horizon deep in the east.

SUNBERRY GARDENS back of the high school bids for attention as new homes are completed by stating in a paid advertisement of an out-of-town newspaper that Campbell schools are well known for fine teaching methods, fine school buildings and a well rounded curriculum . . . quotes the National Educational Association as crediting the Campbell School District with being one of the finest in the entire United States.

A LITTLE LADY with a lot of memories is Mrs. Lucia Whitney of 119 East Campbell avenue who remembers when Campbell avenue was the orchard lined entrance to the Ben Campbell ranch . . . one of her most vivid memories is of the first Old Settlers' Day celebration here in 1892 when she was in charge of the music as piano accompanist for the hymns and patriotic songs honoring George Washington's birthday . . . and she can tell you that Foote Street was named after her father, Horace Foote, an early Santa Clara Valley historian who bought 32 acres of orchard property from Campbell between the railroad and Las Gatos Creek.

GREEN CARNATIONS can be made from white ones, according to Oliver Johnson of East Rincon avenue, simply by putting the right amount of liquid ammonia at the roots . . . Johnson, who is a landscape gardener, worked for many years at a nursery and learned this trick . . . puts a cup full of clean-

ing ammonia in a quart jar then fills it with water, makes about four applications within two weeks time, starting now, about eight weeks before March 17th . . . on shorter notice, some food coloring could be used but not so effectively.

CHARLEY SILVERA, second string catcher for the New York Yankees told members of the Campbell Rotary Club Monday of an incident when Yogi Berra was induced to make a speech at an Academy after watching some of the school's baseball team in action . . . Yogi pleaded that he wasn't much good at the talking business except on the playing field, so Silvera told him to write some notes on his cuff or on a piece of paper which he could conceal on the inside of his coat pocket . . . in the speech Yogi thanked the people for inviting him there and said the team as a whole looked good and he liked the three pitchers . . . Hart Schaffner and Marx . . . Silvera is a small, wiry fellow, built more like a shortstop than a backstop, but he wouldn't be with the Yankees if he wasn't one of the best in the game today.

Christian Science Lecturer Is Coming To Los Gatos Feb. 9
The mutual goal of true science and true religion—to bring health and salvation to mankind—will be the topic of a Christian Science lecture to be given February 9th, 1954, by George Noy of Chicago, Ill., it was announced by members of First Church of Christ, Scientist, of Los Gatos.
Mr. Noy will speak in the Church Edifice, East Main Street, opposite High School, at 8 o'clock, on the subject "Christian Science: The Coincidence of Pure Science and Pure Religion." The lecture is open to all without charge.
Now on extended tour as a member of The Christian Science Board of Lectureship, Mr. Noy became a student of Christian Science in 1923 after he was healed in one treatment of a severe illness that was to have required an operation. He has been a full time public practitioner of Christian Science healing since 1937.
For many years he was active as an architectural engineer, and participated in the design, supervision and construction of many well known buildings throughout the East and Middle West. He was educated in Hungary, graduating in architecture from the Polytechnic Institute in Budapest before coming to the United States in 1913 to follow his career.

During the tour the ship visited the unique British Crown Colony, Hong Kong; the Philippines, Japan, and Hawaii. In Japan the crew was able to visit Tokyo, Kamakura, the city noted for its shrines and great Buddha, Yokohama and Yokosuka. Various rest camps in the mountains around famous Mt. Fuji and on the outskirts of Tokyo were also available to him.

Rushed to Korea during the early days of the conflict, the 25th Infantry took part in some of the most bitter fighting on the peninsula. It is now undergoing intensive post-trace training.

The uses for obsidian probably go farther back into history than for any other of the volcanic rocks.

Christian Science Lesson-Sermon

The wholly spiritual nature of effective prayer which overcomes sin, sickness, and sorrow, will be set forth at Christian Science services this Sunday.

Selections from the Authorized King James Version of the Bible and correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy comprise the Lesson-Sermon entitled "Spirit".

Scriptural texts include the following words of Christ Jesus from John:

"The hour cometh, and now is, when the true worshippers shall worship the Father in spirit and in truth: for the Father seeketh such to worship him. God is a Spirit: and they that worship him must worship him in spirit and in truth" (4:23 the, 24).

The following correlative citation from Science and Health by Mrs. Eddy will also be read:

"To enter into the heart of prayer, the door of the erring senses must be closed. Lips must be mute and materialism silent, that man may have audience with Spirit, the divine Principle, Love, which destroys all error" (15:9).
